

## Retrospective Sprint 2

**What went well:** Some of the task were completed, but overall, this sprint was a so many unfinished task. Due to accreditation/OJT the task was not able to be done and stack in progress.

**What could be improve:** The other task was behind so other members can't do their task. We need to do the task earlier just like the previous sprint so that we can finished it.

**What needs to be done:** The buttons and connect of the database to the functions
